1. Technical Field This invention generally relates to a system and method for a gaming device. More specifically, this invention relates to a system and method for providing a plurality of outcomes and associated prize values to a player playing the gaming device.

2. State of the Art There are many existing gaming devices, such as slot machines, video poker machines, and keno machines, which are well known to casino gaming officials, players, and manufacturers. Gaming devices may generally be classified into several different categories based on the number of outcomes or potential prize values that may be provided by the gaming device. At the low end of the spectrum, gaming devices generally include a single outcome or potential prize value associated with one or more of the gaming device reels. For example, gaming devices such as slot machines, include a plurality of reels which may each have one or more symbols associated therewith.

When the player presses a button or pulls a lever on the slot machine, the reels spin and stop at random positions. If a predetermined arrangement of symbols is associated with a winning outcome, then the player is provided with a prize, which is the payoff for that predetermined outcome. In the mid-range of the spectrum, gaming devices generally include a plurality of outcomes or potential prize values associated with one or more of the gaming device reels. An example of such a gaming device includes a video poker game, such as three-card poker or five-card draw poker. In the basic form of video poker, the player is presented with an initial hand of five cards. The video poker game then displays an additional five cards. If the player's initial hand has a predetermined combination of cards, such as a royal flush, the player is provided with a prize. At the high end of the spectrum, gaming devices generally include a plurality of outcomes or potential prize values associated with one or more of the gaming device reels and a plurality of side bets. In this manner, a player may bet on an outcome, such as the outcome of a slot machine reel, as well as on a side bet, such as the additional award won by a slot machine player when a particular outcome occurs. An example of such a gaming device includes the 82157476af
